

know

the facts about counting carbs

Carbs Count!

Keeping tabs on your carbohydrate intake at meals and snacks is an important part of managing your blood glucose levels. The chart below lists the carbohydrate content of some common foods in each food group.

What is a “Diabetes Friendly” Kellogg’s® Product?

When you see the “Diabetes Friendly” symbol on a Kellogg’s® product, it means the product contains 30 grams or less of total carbohydrate and 9 grams or less of sugars per serving, and is low fat (which is generally 3 grams or less per serving). Kellogg products also provide food exchange information on the package. To learn more about our Diabetes Friendly products, please go to:
